

Football Players

...Are getting worse at the game

sweetclipart.com

Joshua Nielsen

What's the big deal?

The number of points per game has decreased for **FOUR straight seasons**

Why are they playing so poorly?

FOOTBALL!

**America's
favorite sport**

**So much more
than just a
game**

A nationwide crisis!

If football players continue to get worse at the game...

- Nothing to watch**
- Players lose their jobs**
- Economy collapse**

**As someone who clearly
knows a lot about this
game we call football
here in The United States
of America.....**

I made a [dash app](#) to figure out what is going wrong

**Was my argument
compelling?**

**Are you concerned about the
future of the world as we know it?**

Good news!

This is not actually a big deal!

**In fact... football players may
technically be getting BETTER**

Why is this happening?

New defensive strategy: “Two high”

- discourages big plays**

Point averages are historically volatile

- 2020 was actually a peak**

Thank you!
